## Professional Summary

Aspiring Data Science and Web Development professional seeking opportunities to apply technical skills in programming, UI/UX design, and data analytics. Committed to contributing effectively to organizational growth while continuously enhancing my knowledge through practical projects and challenges.

## Projects

### Android-Based General Knowledge Chatbot

- Developed an **Android application** that provides users with general knowledge Q&A functionalities.
- Implemented **basic Natural Language Processing (NLP)** to understand and respond to user queries.
- Designed **intuitive UI/UX** using Android Studio to ensure a smooth and interactive user experience.
- Gained hands-on experience in **mobile app development, backend integration, and user-centered design**.

### Job Tracker, HTML, CSS, JavaScript

- Developed a **responsive web application** to manage job applications with **add, edit, delete, filter, and CSV export** functionality.
- Implemented **dark mode, drag-and-drop reordering, and persistent storage** using localStorage for seamless user experience.
- **Deployed live** on GitHub Pages, enabling easy access and real-time testing: Job Tracker Demo 🌐
- Demonstrated **frontend development skills**, including DOM manipulation, event handling, and UI/UX design best practices.

## Certifications

- Web Development Bootcamp (FreeCodeCamp).
- Completed online courses on python through COURSERA.

## TECHNICAL SKILLS:

**Programming Languages:** Java, HTML, CSS, JavaScript, UI/UX Design

**Developer Tools:** VS Code, GitHub, Jira, SQL Developer, Microsoft Office Suite

**Soft Skills:** Observation, Decision Making, Multi-tasking

## Key Achievements

- **Developed Job Tracker Web App** with full CRUD functionality, dark mode, drag-and-drop reordering, and CSV export; deployed live on GitHub Pages.
- **Completed Web Development Bootcamp (FreeCodeCamp)**, mastering HTML, CSS, JavaScript, and responsive web design.
- **Built Android-Based General Knowledge Chatbot** integrating basic NLP, enhancing problem-solving and UI/UX design skills.
- **Internship at Tecky Bot:** Developed responsive web pages and integrated backend APIs, gaining hands-on experience in real-world frontend development projects.
- **Consistently maintained strong academic performance**, scoring CGPA 8.00 in B.Tech 🌐 with additional certifications in Python and web technologies.

## Experience

### Tecky Bot – Web Development Intern

- Developed **responsive web pages** using HTML, CSS, and Bootstrap.
- Integrated **backend APIs** to improve dynamic functionality.
- Gained hands-on experience in **frontend design and responsive layouts**.

## Education

**B Tech. CSC(Data Science Engineering)**, AUDISANKARA COLLEGE OF ENGINEERING & TECHNOLOGY

2021 – 2025
